

Faced with figuring out what to do about virtual learning for your children?

We are here for you!

The Cornwell Center is ready to welcome your child(ren) to a Full-Day Elementary Program for virtual CMS families with children in kindergarten – fifth grade starting September 10 | Monday-Friday | 7:30a - 6:00p.

Students will have a safe space with trained staff to help them complete their schoolwork, as well as participate in activities and play time while their parents go to work. Each day will include a dedicated time for schoolwork, snack time, educational games, lunch time, play time, outside time and anything else the students need to work on for school.

With daily health screening, lots of outside time, and a consistent schedule, this program aims to help families have a successful fall semester.
